

QENCOM

LASER ENGINEERING

QENCOM are the market leader in 3D laser engineering scanning and modeling, creating solutions to complex problems in less time and at a reduced cost to clients.

QENCOM have proven success in applying this technology across the life-cycle of any project from design to construction in:

- ✓ Ports and Materials Handling
- ✓ Rail
- ✓ Transport
- ✓ Water
- ✓ Mining and Refining
- ✓ Oil and Gas

QENCOM have proven experience in the development of the following solutions:

- ✓ Deflection Assessment and Modelling including: Heat-Map
-Planar & Contour
- ✓ Concept through to Detailed Design
- ✓ As Built Modelling
- ✓ High Voltage and Electrical
- ✓ Piping and Mechanical
- ✓ Shutdown Planning and Staging
